

Notice of New Psychiatrist Provider at KOKO

Dr. Andrea Nelsen

Kīpuka o ke Ola (KOKO) is happy to announce that Psychiatrist Dr. Andrea Nelsen will be joining the KOKO Provider Team as of 3/25/24.

Dr. Nelsen has provided psychiatric care and worked in both private and public settings, in-patient and outpatient care modalities. She is moving from Minnesota to make Waimea her home. She has been a colleague of Dr. Farnsworth in the past and together will provide our community with excellent psychiatry, psychiatric medication management, and transcranial magnetic stimulation (TMS) services. We are excited to have them team up again and expand the much needed behavioral health care to our Big Island patients.

Dr. Farnsworth currently sees patients 15 years of age and older, and Dr. Nelsen will see patients 7 years of age and older.

When referring patients for psychiatric services, you do not need to specify a particular psychiatrist. We will determine which provider would be the best fit for the patient.

Mahalo nunui!
